

# FIRE ON THE ROOF OF EDEN

## Lucinda

I'm late I'm late I'm sorry I'm sorry  
She rocked ,she rocked and you wouldn't have left if you were me

I'm late I'm late I'm sorry I'm sorry  
She rocked, she rocked, I'm going to get a big tattoo when I'm fifty

I'm late I'm late I'm sorry I'm sorry  
She rocked, I was with my friend Mie, she turned on her light and she  
shone it so brightly

I'm late I'm late I'm sorry I'm sorry  
She rocked, she rocked ,I can see by your face that you're not really  
angry

I'm late I'm late I'm sorry I'm sorry  
I'm late I'm late ,I'm really glad that we have some history

It's a feeling that you get.....sometimes close

## Cyane

She's been riding; she's been riding the horse again  
It takes away the pain it takes away the pain since I don't know when  
Got to be sitting straight up caught upstream  
Walk to the end of the street and back again

She's been talking she's been talking in her sleep again  
She's been dreaming she's been dreaming her dreams again  
Going to the end of time beyond diving deep into the glory pond  
Don't you know it's all there in her hands

She's been riding; she's been riding the horse again  
Such a pale ghost rider a pale ghost rider that you've ever seen  
She can take you deep inside her dream  
Help you forget the things you've seen

She says that there is no end to you  
Her words are just too good to be true  
Big strong hands and beauty too  
You are one of the chosen few

Sitting in the parc de la villette  
It's her hands that will give her rest  
She's been riding She's been riding her horse again

## Revenge Is Sour

I got you back you little creep  
Once more the bottom of the heap  
So why do I feel so shit  
it's knowing that I'm reduced to this

They told me it would be so sweet  
They told me it would be so sweet  
They told me it would be so sweet  
Revenge is sour, Revenge is sour

Are you shedding your skin again  
Are you being my friend again  
Are you hoping I have forgiven  
The luckless place that you have driven me to  
O No Revenge on you

Not quite the witch I'd like to be  
My spit in an avalanche of hate  
Blood for blood leaves all dead  
Like the filthy mess that is your head

They told me it would be so sweet  
They told me it would be so sweet  
They told me it would be so sweet  
Revenge is sour, Revenge is sour

Are you shedding your skin again  
Are you being my friend again  
Are you hoping I have forgiven  
The luckless place that you have driven me to  
No Revenge on you

## I Want You

There was a spirit that I once knew,  
Inside us it grew,  
battered bruised dazed confused,  
took it's broken wings and flew.

I can remember, I can recall a time;  
When you came out of a distant land  
to lay with me, Cane to love me;  
You'd held an apple in your hand,

Came to nurture, came to sow;  
Plant a seed and watch it grow,  
You came barefoot; I gave you my shoes  
watched me surrender, there was nothing to lose.

And still I feel your hand on my heart,  
to have and to hold, with a want gone cold.  
like a bird that has no wings,  
I want to fly to you.

With eyes full of sorrow I look at you.  
With heart full of tears I cry for you.  
like a wind full of dreams I dream of you.  
like the touch of your skin I long for you.  
like ten thousand knives piercing me i want you

## **Keeps on Spinning**

I suppose I could set aside a day or two  
Have my evil way with you  
And you could sit, you could sit eat candy floss  
And I'd love you like Jesus holds on to his cross

And it keeps on spinning

Run like a rabbit Seems to be your habit  
I wish they'd switch u off Just like all the rest  
be quiet and let me pack  
I want to get u off my back

And it keeps on spinning

And your fingers like thorns  
Feels like I've just been born  
Like an old romance that's been burning way down deep  
And The earth keeps on spinning but I'm still here on my feet

## SEQUINS

Filling in days with the raising of humans  
Hoping to leave behind more than we've consumed  
Passing down lessons in Honour and Love  
Cheekbones and Memories, Shoe sizes, Blood

Hoping for Unions that rise us above  
The trouble it can be to keep warm and fed  
Feeding our minds connects us to those  
For whom the struggle is harder or different or more

Nothing shapes as sharply, as the Unloved

There's a hardness in Living you've managed to avoid  
A testament to the way you look for good

Long work, Unsung  
Long day, hard made, hard won

Nothing shapes as sharply as the Unloved

## **Mother's Door**

Hey, who made you see, who made you be, who set you free  
Hey, who made you sing, who gave you wings, who cut the strings

and all the signals have got crossed  
(makes the world go round)  
down from the stars, your spirit lost.  
(brings you to the ground)  
my eyes can't see the truth no more  
(makes all things grow)  
I'm drifting now to different shores.

Hey, who made you run, took away your gun  
in one so young, look at what you've done

(makes the world go round)  
(brings you to the ground)  
Back to your door

and all the signals have got crossed  
(makes the world go round)  
down from the stars, my spirit lost.  
(brings you to the ground)  
my eyes can't see the truth no more  
(makes all things grow)  
And I'm drifting now to different shores.

time stands still, you said it never will;  
Crawling back to your door

Hey, who broke the bread, believed in all you said, all there is to tell  
(brings you to the ground)

## **Need A Little Luck in This Life**

We all need somebodys eyes need somebodys thought  
need love in our arms  
to get us through the night  
to get us through the night

me looking at you you looking at me  
We all need to know that the world can see

## **Need A Little Luck in This Life**

We all need loving arms so fierce  
Someone we can touch that's not asking much  
From a world in which we'll soon  
have forgotten how to care  
No more love left anywhere  
and the cause will be our own  
with the stone that was first thrown

## **Need A Little Luck in This Life**

## **And the wind just cries**

here i am again now on my own  
splendid isolation is my home  
spend my time just looking out for you  
if only i could reach the place you've gone

like golden birds your magic hands  
they build me a castle made of sand  
and the wind just cries  
i guess i know you are the reason why

i'll love you till i die  
you are the reason why

like a bird of paradise you fly  
waited somewhere that i cannot find  
spend my time just looking out for you  
hoping i can call you to my side

i'll love you till i die  
you are the reason why  
your the reason why

and the wind just cries  
your the reason why  
you are the reason why  
and the wind just cries

## **He cut his heart out on the sea**

sleep just a moment  
shadow of my tears  
sleep the sleep of apples  
cut his heart out on the sea  
he cut his heart out on the sea  
cut his heart out on the sea

## Consolation

and if you need some consolation  
if you needed sweet caress  
are you able for love now  
able for distress

## Sinners

comes a time when every young man  
steps out from his fathers house  
he says to himself as he travels along  
this sure is an easy road im on

like a russian wind like lightning in the night  
like a thunderstorm coming down with all its might  
and the stars will fall like cinders on the way  
it makes a cloud, cloud that darks the day

spending your nights in a gambling den  
throwing dice with the devil for your soul  
and those others dressed in yellow and in scarlet  
they left you lying there in need broke and ragged

like a russian wind like lightning in the night  
like a thunderstorm coming down with all its might  
and the stars will fall like cinders on the way  
it makes a cloud, cloud that darks the day

as far as i can see  
shining through  
as far as i can see  
sinners like you and me.

## Purple girl

green o how i love you green  
green o how i love you green

i am a purple girl to my mother  
like her now a mother and daughter  
and i wrap my children warm and tight  
i worry about them when they sleep at night

i am a purple girl to my father  
like him now i feel the cold  
and i wrap my children warm and tight  
i worry about them when they sleep at night

green o how i love you green  
i am a purple girl to my mother  
green o how i love you green  
i am a purple girl to my father

## **Saving ourselves**

she called you down she begged you in  
a spiders looked on o and let the games begin  
you held your breath you wanted more  
than stolen footsteps across her lovers floor

and what are we saving ourselves for in the end  
a happy ending  
a happy ending  
your happy ending  
saving yourself for in the end

temptation was your middle name and  
better men than you have wept you cry you're tears in vain  
she calls you down she begs you in  
the spider laughs o and let the games begin

and what are we saving ourselves for in the end

## Little Siren

little siren where are you  
dive so deep into the blue  
little siren wait for me  
I want to go with you

Another siren another siren tale  
she believes it, she doesn't know about the feet yet  
Little siren won't you  
Little siren won't you  
Little siren won't you please

Little siren take my feet  
And give me shiny silver skin  
Wont you take my seed  
So I can swim again

Another siren another siren tale  
She believes it she didn't get to the part about the  
Little siren won't you  
Little siren won't you  
Little siren won't you please

## **L'Amour c'est nous**

Don't know what you have till it's gone and  
Baby's coming back no more  
Bring your love to me don't send it  
There's a way to find it  
I'd love to feel your arms around me

I love you

And I need you like I know I need tomorrow  
I believe that you  
I believe you love me too

I love you its true

Don't know what you have till it's gone and  
Baby's coming back no more  
Bring your love to me don't send it  
There's a way to find it  
I'd love to feel your arms around me

I love you  
I love you its true
